As a Farm Educator, you will lead engaging field trip activities in horticulture, soil science, nutrition, and fostering healthy living habits. These activities will captivate and educate youth from all corners of southern Arizona.

If you're passionate about making a positive impact on the future generation and are ready to nurture a love for farming and sustainability, we invite you to join our team today.

As a Farm Educator, you will lead engaging field trip activities in horticulture, soil science, nutrition, and fostering healthy living habits. These activities will captivate and educate youth from all corners of southern Arizona.

Tuesday-Thursday 8am-12pm
